the Erie Issues Conspicuously Strong and Active-Slight Declines The Frie Issues Conspicuously General in Railway List-Fairly Animated Dealings in Industrials.

Americans Advance in London.

NEW YORK, Jan. 15 .- The Stock Market today opened comparatively qu et, and showing small and irregular price changes in both directions.

The Erie issues were conspicuously strong and active, advanting on assertions that the first preferred stock would soon be placed upon a regular 4 per cent dividend basis. For the most part, however, the railway list was dealt in at slight declines from yesterday's final fig-ures, although Missouri Pacific, along with the Eries, was a striking exception to the common tendency.

The dealings in the industrial quarter were fairly animated, and resulted in further advances in American Smelting and Federal Steel. American Steel and Wire, on the other hand, was heavy. The dealings in the local traction group

developed no features of interest, but a fairly steady tone was noted there. The London market for American stocks was shown at substantial advances from yesterday's local final figures, and foreign houses again bought moderately in

this market. There was an absence of any developments of importance over night, although the utterances attributed to Mr. Carnegie in an interview published yesterday seeman archer more optimistic ed to create a rather more optimistic feeling regarding the future of the country's steel trade. There was in this same regard an exceedingly sharp advance in National Tube stock in the early dealings.

There was again much uncertainty in the tone of the market this morning, prices fluctuating back and forth in a puzzling way during the first hour or more, and giving little in the way of indication on which could be based any prediction as to the immediate future. The opening was up a fraction, and then came a decline all over the list, after which there was a good advance, which carried prices higher than they had been at any time before during the morning. The buying seemed good, and this, with the declaration of an 8 per cent dividend on Tinplate, common st the talk of a satisfactory meeting of the Federal Steel people this afternoon, and the knowledge that the banks have gained leavily in cash since last Friday, seemed to offer legitimate encouragement to the bulls, but in such a market as the pre movements on apparent reasons. It is the reasoning of the professionals that counts. It seems probable, however, that whatever the immediate fluctuations may be, prices will not go very much lower. The prediction of a 5 to 15 point reaction from the highest level, made a week or more ago, seems likely to be fulfilled, and probably such a decline will be sufficient to weed out the weaker accounts and make prices look sufficiently attractive to the insiders and professionals. Such a break has already occurred in some securities, though others have not yet gone

Ex-div. 11/2 per cent.

The banks have gained \$4,500,000 since Friday, about half of which was from the sub-Treasury. The outlook for the state-ment this week is entirely encouraging. A large amount of gold received on the Pacific Coast this week will not appear in this week's statement, but it will swell that of next week. The talk of gold shipments from New York continues. Money is easy and the financial situation is en tirely satisfactory to the Street.

Steamer and Schooner Collide. NORFOLK, Va., Jan. 15.—The Norfolk and West India Fruit and Trading Company's steamer Santuit, Captain Drewry from Jamaica for Norfolk, was in collision with the schooner George Churchman, Captain Mathews, from New York, off Thimble Light, yesterday morning. A big hole was stove in the schooner's bow. This was patched with canvas, and the tug Joseph M. Clark towed the schooner to this harbor. While at anchor off the Naval Hospital, in the afternoon, the Churchman filled and capsized. She lies on her beam ends in two fathoms of wa-

ter. The Santuit was uninjured. North Carolina Pardons. RALEIGH, N. C., Jan. 15 .- It is learned that during the past thirty days Governor Russell has pardoned about forty con victs. Four were pardoned yesterday, He has also reduced the terms of many of s causing a great deal of criticism.

The Bill Prohibiting Bone and Fertilizing Factories.

Attorney Duvall Suggests Amend ments to the Health Officer's Draft. Thinks That Slaughterhouses Also Should Be Controlled by Restrictive Legislation-Other Matters

Andrew B. Duvall, Attorney for the Dis rict, has returned to the Commissioners he draft of the Health Officer's bill of fered as a substitute for House Resolution No. 8696. The draft referred to relates to the prohibiting of bone and fertilizing factories in the District of Columbia. Attorney Duvall suggests substitutes for ertain sections of the draft which he enloses in his letter to the Commissioners The Attorney informs the Commission ers that the modifications of section 3 ex-

plain themselves. With reference to the evocation of a permit, the Attorney thinks the section of the Health Officer's draft is too indefinite. No one, he says, would know when the revocation took place, and that fact, he thinks, is important. The Attorney states that the desired object is fully accomplished by authorizing the Commissioners to issue permits with restrictions to place and use, and to revoke any permit upon violation of any of the provisions of such permit. Continuing, the Attorney says: "The modification of section 4 of the draft consists in the omission of the clause imposing a penalty for maintaining

clause imposing a penalty for maintaining such establishment 'so as to give rise to offensive smells or exhalations or to be otherwise hurtful or dangerous to the neighborhood.' Aside from the doubtful validity of this provision, it would seem to be inconsistent with the scope of the act. The plan originally outlined was to absolutely prohibit such business in the District. The Health Officer's draft recognizes the lawfulness of such business in ognizes the lawfulness of such business in the District and undertakes to regulate it, while paragraph 4 practically prohibits such business in the District; for, I as-sume, that it is impossible to conduct such business without giving rise to offen-sive smell or exhalations.

such business without giving rise to offen-sive smell or exhalations.

"It seems to me that so long as the business is to be !:censed, the public may be adequately protected by the stipula-tions and restrictions contained in the li-cense to be granted. Such a license would not impair the general liability under the common law to indictment and transish-ment for maintaining an establishment. nent for maintaining an establishmen

"While there may be good reasons for restricting this act to establishments of the character mentioned, an excellent opportunity is presented to make it appli-cable, with equal force, to all establish-ments of a similar nature, that is to say, to slaughterhouses, for instance. "It seems to me that the skinning, ren-

"It seems to me that the skinning, ren-dering, or otherwise utilizing dead ani-mals, even though intended for sale as food for man, if such busines is conduct-ed in the District, which I assume to be the case, is equally as obnoxious as the business undertaken to be regulated and that it is of equal importance to the pub-lic that it should be regulated."
